

A new level of 5+ Axes Machining

Making the most out of Quadcore

CNC 8065 Quercus

Up to 31 Axes | Four Channels | High-Speed | Fully Customizable

CNC 8065. A Flagship Control System without any technical limitations. Powered with a multi-processor Quadcore platform and adaptable to all modern **Web-Based HMI's**- hence delivering complete portability to your production floor. **AI-based machine learning** algorithms, **Data capture & analysis**, **Online CNC support** including training, tuning, troubleshooting, & feature updates. Included is an advanced library of technical tools such as DMC, HSSA, FFC, & Open System to assist with any complex operation.

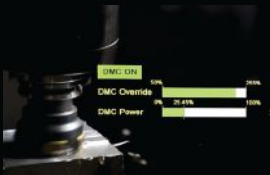

Multi-Platform Web-Based HMI
(Fully Customizable) (Win, Android, iOS, Linux)

Powerful Free Online Tools
(Remote CNC Support, CNC Simulator, YouTube Tutorials)

Versatile, Adaptable, **Powerful**

Dynamic Machining Control (DMC)
(AI Machine Learning Option)

Easy Interface with Automation Devices
(Loaders, Pick & Place, Guaging Devices, etc.)

High-Speed Surface Accuracy (HSSA)
